The screenshot displays the Fast2SMS dashboard in a web browser. The browser's address bar shows the URL `fast2sms.com/dashboard/sms/bulk`. The dashboard header includes the Fast2SMS logo, an 'Account Info' dropdown, the current time '10:49:46 AM', and notification and user icons. On the left, a sidebar menu lists various features: Bulk SMS, DLT SMS, Quick SMS, Address Book, Delivery Reports, Transactions, Dev API, Settings, and Help. The main content area is titled 'Bulk SMS' and shows a balance of ₹55.00 with an 'ADD CREDIT' button. The 'PROMOTIONAL' tab is selected, revealing a form for sending promotional messages. This form includes fields for 'Sender ID' (pre-filled with 'FastSM'), 'Mobile Number' (with a '+91' prefix and buttons for 'CONTACT', 'LIST', and 'EXCEL'), and a 'Message' field (with a character limit of 90 and an 'ENGLISH' language selector). The message content is 'Dearuseryourotp:' and the status is '- Sent via ftwsms'. At the bottom of the form are 'SEND' and 'SCHEDULE' buttons. To the right of the form, a 'FEATURES' section lists benefits for marketing and promotional SMS, such as 'No DLT Registration Required', 'Only for Non DND numbers', 'SMS Delivery After Approval', and 'Send SMS from 10 AM - 9 PM'. A 'Personal SMS not allowed' warning is also present. A support chat window is open in the bottom right corner, displaying the text 'Support Team' and 'How can I help you ?'.
